Addendum/Questions & Answers #2

Pre-Qualification #539

General, Mechanical and Electrical Contractors

Clarification for Answer #4 on Addendum, Questions and Answers #1

Question 4
Multiple Service Categories and Submission Format
For proponents applying under both the Mechanical Contractor and Electrical Contractor categories, please confirm whether one consolidated prequalification package may be submitted, with shared corporate documentation and separate category-specific references, personnel qualifications and relevant project experience.

Answer 4
Separate submissions are required for each Service Category.

Question 4
If we are submitting for a service category under multiple project values (i.e. $100k up to $15 Mill), do we need separate submissions for each value threshold or can one for the indicated range be sufficient?

Answer 4
No, you do not need separate submissions for multiple project values. One submission is sufficient within the entire range.
