Keys will be provided to the Successful Proponent for access to recycling sheds where deemed appropriate.		
B7.2	CO-MINGLE SERVICE: The TVDSB has implemented a program at all locations where recycling is collected in the school with clear bags as co-mingled (single stream) product. School staff then place the bags into specially identified bulk lift containers for pick-up. The vendor is responsible to utilize front end collection trucks for transport. Sorting is to be done by the vendor.

If a lock becomes damaged and requires replacement, then the Successful Proponent shall be responsible for this cost and for ensuring that a correct set of keys are present in the school. Preference is for bulk lifts fitted with plastic lids, slant style at 6 yard and above. Please provide details on types and sizes of bulk lift. The Successful Proponent shall work with the Boards to modify and address safety concerns with bulk lifts.		
B8.0	RECORD KEEPING, REPORTING AND SCHEDULING		
B8.1	The Successful Proponents shall keep a log sheet of materials collected at each facility with recordings of approximate weights of recyclables. Weights shall be a best estimate and the data will be used to determine rebates. Weight will be provided by e-mail to Facility Services at both Boards, in electronic format (Excel) on a monthly basis . Proponents must include a sample log sheet, in Excel format.		
B8.2	Subject to Section B4.2, the Successful Proponent shall be responsible for replacement personnel in the event of illness or other unforeseen circumstances to ensure continuance of the agreed service.		
B8.3	In addition to monthly reporting, the Successful Proponent shall provide the Boards with the annual tonnage figures of all types of materials picked up from the Boards as described in Section B4.4.		
B9.0	MARKETING OF MATERIALS		
B9.1	The Successful Proponent shall be responsible for the marketing of materials and providing the Boards with the value of the materials sold. The Successful Proponent shall sort, process, bale and transport the recyclables. Discuss your past experiences and successes in marketing of materials and provide the source of future price determination.		
B9.2	The Successful Proponent shall provide a monthly breakdown on pricing and end market for each of the recyclables identified in section B4.4. This pricing shall be used in conjunction with the submitted log sheets volume data (converted to weights) to determine the monies owing. The monthly pricing shall be delivered with the monthly log sheets and invoice. The Successful Proponent shall submit a separate monthly cheque of the revenues owing based upon the price of the recyclables and the log sheet data to the TVDSB and the LDCSB.		
B9.3	The Successful Proponent shall remove cross-contamination where possible from the collected materials (e.g. plastics within glass bins) to obtain best pricing. If the cross-contamination exceeds 10 percent, the Successful Proponent shall inform the Boards.
